G.O. NO. 2310

Dated 28.5.53

[Despatch Abstract.]

Electricity Dept. Extension for Supply to H.T. Consumers - Payment of cost by Consumers for portion of service line - Proposal - Approved

ABSTRACT.

ELECTRICITY DEPARTMENT - Extension for supply to H.T. consumers - Payment of cost by consumers for portion of service line - Proposal approved.

PUBLIC WORKS DEPARTMENT.

G.O.Ms.No.2310 Dated 28th May 1953.
Read the following:-

From the Chief Engineer (Electricity) No.3143 M/52-7 dated 16-1-1953.
From the Chief Engineer (Electricity) No.3143 M/52-22 dated 28-2-53.

O R D E R :-

Under the procedure now followed by the Government Electricity Department, the entire cost of the line for supplying power to a H.T. consumer, including the terminal portion of the line lying within his premises and ending at the point of supply, is being borne by the Department. According to the provisions of the Indian Electricity Act 1910, it is open to the Department, as the supplier of electricity, to require all consumers to pay for the cost of so much of any service line as may be laid down or placed within the consumers' premises for the purpose of the supply of power to their service upon the said premises. The portion of the service extensions lying on the consumers' premises and ending at the point of supply is already being paid for by the consumers in the case of domestic and L.T. industrial supplies. The Chief Engineer (Electricity) has recommended that the same procedure may be applied in the case of H.T. consumers also who may accordingly be required to meet the cost of the portion of the service line lying within their premises and ending at the point of supply. The Government accept the recommendation of the Chief Engineer (Electricity).

2. The Government also accept the proposal of the Chief Engineer (Electricity) that the cost of metering and controlling equipment standing in the consumers' premises may be continued to be met by the Department.

(By Order of the Governor)
